

CMC Biologics A/S Announce Manufacturing Agreement with Symphogen A/S

Copenhagen, Denmark; August 05, 2008, – CMC Biologics A/S announced today that it has entered into an agreement with Symphogen A/S for process development and cGMP manufacture of an undisclosed polyclonal antibody product candidate from Symphogen’s development pipeline. Terms of the agreement were not disclosed.

“We are pleased to establish such a partnership with Symphogen and are excited to be involved in this unique field of recombinant polyclonal antibody technology,” said Mads Laustsen, CEO of CMC Biologics.

About CMC Biologics A/S

CMC Biologics is a leading contract development and manufacturing organization that provides fully integrated biopharmaceutical development and manufacturing services to clients around the world, from its facilities in Europe and the USA. The company specializes in custom services for the scale-up and cGMP manufacture of protein-based therapeutics for pre-clinical, clinical trials and in-market production. CMC’s wide range of integrated services includes cell line development using its proprietary CHEF1® system, process development and comprehensive analytical testing. CMC has fully segregated microbial fermentation and mammalian cell culture suites and offers both fed-batch and perfusion production processes. CMC Biologics A/S is located in Copenhagen, Denmark, and CMC ICOS Biologics Inc., is located in Seattle, WA.
